

DEEP SKY

Sitting in an empty room
Staring at the rising moon
Wishing you could be here
Hold you in my arms again

You left me on the edge of time
Reaching out, your hand in mine
Flying through the night sky
Waiting for your star to shine

CH Wanting you
 Dreaming you
 Think I could lose my mind
 Holding onto memories
 You and me together
 Lost in a silvery night

Listening for the sounds of dawn
Your photo smiling on the wall
Wish that you could be here
Hold you in my arms again

M8 Deep sky, thinking of how I miss you
 Bright star, dreaming you by my side
 Inside, feels like we live forever
 It's you, guiding my way back home

The sun is shining through the rain
Burning off the clouds we made
If only you could be here
Hold you in my arms again
