

SHOT IN THE NIGHT

Shot in the night
Came like a shot in the night
Deep in my heart
Burned down deep in my heart
How could you do this to me?
Why did you lie and deceive?

All of those years
Wasted all of those years
You didn't care
If the road ahead was a road to nowhere
Oh, I believed you and me
Alone now, I'm lost in a dream

CH Is it a part of a dream
Far away
So far away, the laughter, the tears and the pain

Alone in my room
Survived all alone in my room
Found a new life
With love, I found a new life
Travelled so far to be free
Somewhere to find a new dream

CH

M8 It's the time of your life
When you find a new love
And you hold on
And you never look back
Take your eyes off the track
Never slow down
As the pain disappears
And your mind starts to clear
You're away now
Flyin' so high
No need for goodbyes

Shot in the night
Came like a shot in the night
(repeat and fade)
