

## TOO LATE FOR LOVE

When the sun begins to shine  
I will be yours you will be mine  
And if we try our very best  
This world won't be a lost address

CH Don't destroy what you cannot replace  
Or she'll be gone and you'll turn around  
But it's just too late for love

When there's no air left to breathe  
She'll say it's time for us to leave  
Because we've taken all she had  
We too shall die with our land

CH

M8 Take a look what we've done  
Take a look what they've done now  
Take a look what you've done  
The only earth we've got

But if we stop the damage done  
And if there's time to start again  
This earth might last another day  
For you and me, don't turn away

CH
